

CMEC Government Donors: January 1, 2018 to Present

In the interests of transparency, we are disclosing the following grants in support of Carnegie's Cross Border Projects and Civil-Military Relations in the Arab States project. Dr. Maha Yahya does not work directly on the Civil Military Relations project but in her management capacity at the Kerr Center in Beirut she oversees work on these efforts. These grants are included here because the project does touch on gender in the context of the region's military. None of this project work addresses US policy on any of the issues slated for discussion in this hearing.
